Business Items**Ordinance No. 125, Fourth Series, an Ordinance Amending the Code of Ordinances for the City of North Mankato, MN.**

Community Development Director Fischer reviewed proposed planning and zoning code changes which included requiring fees for residential rental licensing and renewals be established by resolution, changes to the water service lines, building sewer and connectors requiring individual services installed for each unit, garbage containers must not be stored in front yard building setbacks or any area of the front yard and increased private garage sizes from 1200 square feet to 1400 square feet.

City Administrator Harrenstein reported the removal of the two-year term for the City Administrator removes language that is different than the current employment contract with the City Administrator and reflects updated appointing practices standard with most Administrator contracts. He noted removal of the bond requirement from the City Code is recommended because indemnification language is also included in standard City Administrator's contracts. City Administrator Harrenstein stated the checks and balances for fiduciary responsibilities between Administration and the City Council are addressed with the annual financial audit, annual approval of the budget and bi-monthly approval by the City Council of each expenditures made by the City. In Standard A Cities, the City Council is required to appoint a City Clerk and City Treasurer and appointing those duties to the City Administrator with the authority to delegate them reflects the operating structure of the City. City Administrator Harrenstein stated the changes to the purchasing limits reflect the changes that Council approved in 2018 which changed the contract information to reflect changes in State Statute contracting language. Mayor Dehen commented that the audit helps maintains the checks and balances. He noted that the City Administrator is the only staff member that answers directly to the Council. The staff report to the administrator and the Council directs the administrator and sets goals. He indicated the changes would pull the code into current practices. **Council Member Steiner moved, seconded by Council Member Norland to Adopt Ordinance No. 125, Fourth Series, an Ordinance Amending the Code of Ordinances for the City of North Mankato, MN. Vote on the motion: Steiner, Norland, Oachs, Whitlock and Dehen aye; no nays. Motion carried.**

Res. No. 23-20 Ordering Preparation of Report on Improvement for project No. 20-03 ABCDEF Countryside Drive Improvement Project.

City Administrator Harrenstein reported during the 2020 budget process; staff reported there might be changes to the projects based on when projects/developments come together. A single-family housing development is proposed in the Coventry area and Countryside Drive is a road off LorRay and a portion of the road is a township road. A development agreement is being negotiated and improvements need to be considered. City staff requests permission to study the project. Mayor Dehen commented that the improvement of the road might alleviate issues with the parking at Walter S. Farm park. Public Works Director Host reported staff might suggest not continuing the ravine improvement in 2020 to help fund the Countryside project. He noted the City Engineer had suggested a year of reviewing the completed ravine improvements would help direct the ravine improvement in the future. **Council Member Steiner moved, seconded by Council Member Norland to Adopt Res. No. 23-20 Ordering Preparation of Report on Improvement for project No. 20-03 ABCDEF Countryside Drive Improvement Project. Vote on the motion: Steiner, Norland, Oachs, Whitlock and Dehen aye; no nays. Motion carried.**

Receive Pavement Management System of North Mankato 2019-Report Update.

Public Works Director Host reported the original report was received in 2014. The goal of the pavement management report is to provide a snapshot in time of the system to assist staff and council in understanding system conditions, assist City Council in making decisions regarding pavement maintenance/preservation, and provide recommendations regarding required investments to effectively maintain/preserve pavements. Public Works Director Host reviewed the lifecycle of pavement and how additional maintenance increases the life of the pavement. A review of the pavement conditions in 2014 showed an average pavement condition of 6.9% compared to an average pavement condition in 2019 of 7.4%. The pavement preservation plan relies on the use of several forms of preservation including crack sealing, asphalt patching, chip seal, fog seal and pavement rejuvenator. Public Works Director Host reviewed the current budget allocations with the report recommendations which increased the use of rejuvenator/chip seal/fog seal. The increased use of those management practices would increase expenditures by \$55,000. The report also included an increase in the budget of \$44,000 for increased mill and overlay. **Council Member Norland moved, seconded by Council Member Steiner to approve the Pavement Management System of North Mankato 2019-Report Update. Vote on the motion: Steiner, Norland, Oachs, Whitlock and Dehen aye; no nays. Motion carried.**
